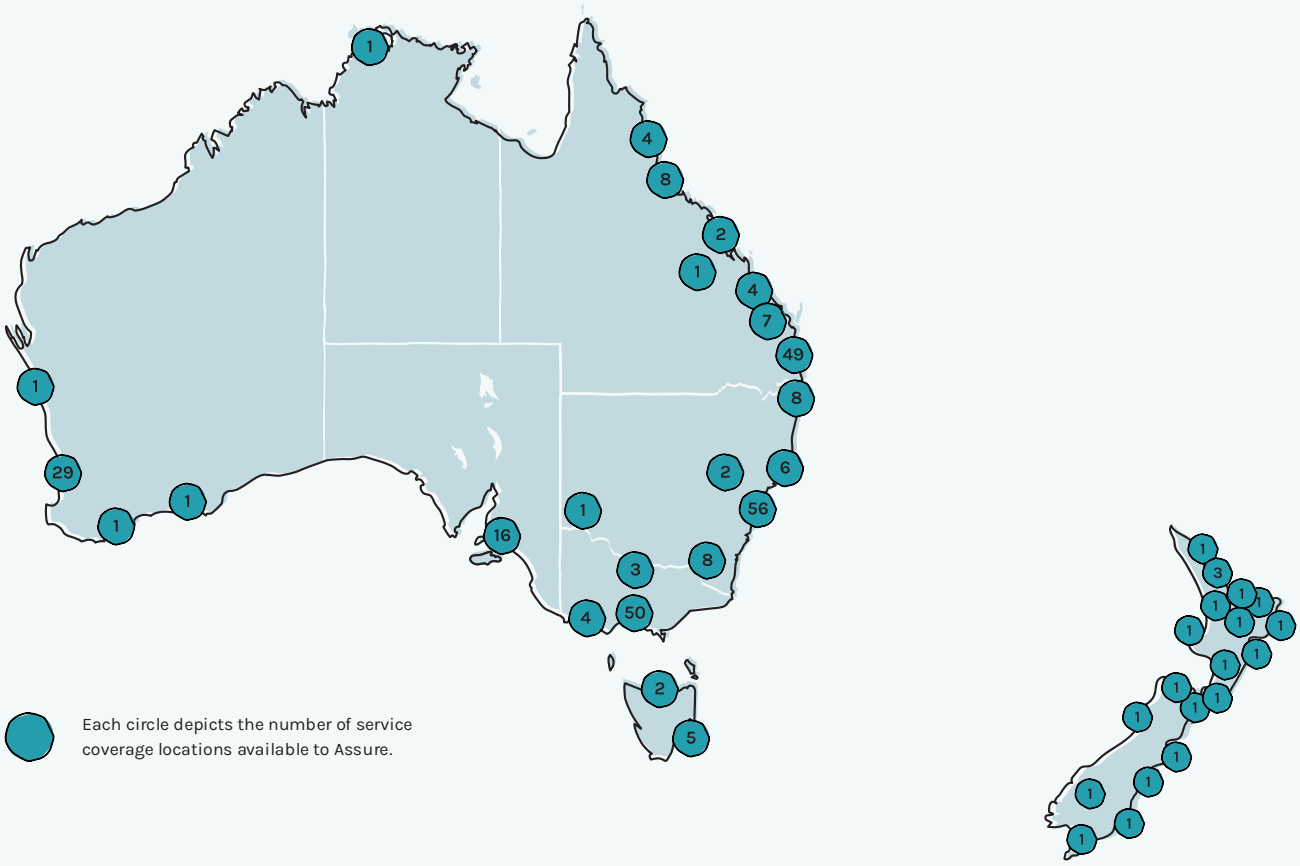
Assure Geographical Coverage

Assure delivers support via face-to-face, telephone, video and Chat modalities offering a model of choice and control for our clients.

Face-to-face support is offered in our own locations, through our associate network, and onsite with our customers as required. Our nutrition, financial and legal support referrals are provided via telehealth or Chat.

Australian and New Zealand coverage



While Assure's national footprint is expansive, we recognise there may be occasions where Assure does not have a physical presence or where an individual may require support while travelling to other locations.

In instances, where Assure's Associate Management team are not able to identify suitably qualified and experienced clinicians for face-to-face support Assure has significant capacity through our national network to offer timely alternative modes of support including chat, telehealth and virtual counselling options.
